NATIONAL FOREIGN INTELLIGENCE BOARD

NFIB/NFIC-9.1/48
4 June 1981

MEMORANDUM FOR NATIONAL FOREIGN INTELLIGENCE BOARD

SUBJECT: SCI Access Approvals []

1. Based on the advice of your representatives on the Committee on Compartmentation (COCOMP), the DCI-imposed ceiling on Sensitive Compartmented Information (SCI) accesses is herewith ended. []

2. DCI responsibility for monitoring SCI access approval will be exercised eventually through the statistical capabilities of the Central Access Register (4C). In the interim, I would appreciate your personal support in assuring that SCI statistics are regularly reported to Chief, Special Security Center, CIA, as requested by SA/DCI/C in a 15 May 1981 memorandum to Members of the 4C Working Group. []

3. The COCOMP also considered several proposals for revising the authorities for granting various SCI access approvals. No consensus could be reached and therefore, the status quo for the several systems is hereby confirmed. []

[]
B. R. INMAN
Admiral, U.S. Navy
Deputy Director of Central Intelligence
